

SCOTT FISCHER PHOTOGRAPHY

(YOUR SESSION PROOFS AND PICKING FAVORITES)

PICKING YOUR FAVORITES

The website gives you an easy way to pick and sort favorite images from the photo session. Once you've entered the proofing gallery, you can immediately start picking favorites and placing them into your Favorites collection. Here's how:

- 1) From the gallery thumbnails view, click on any one of the thumbnails to enter the "Preview" mode. In the preview mode, there's a larger image on the left side of the screen, and a thumbnails navigation area on the right side of the screen, as seen to the right:
- 2) Move your mouse towards the upper-left corner of the preview image and you'll see the [Menu] button appear. Once you move the mouse over that button, a menu drop-down appears, as seen to the right. The top choice is "Add to Favorites". Select that menu choice on each image you want added to your favorites.
- 3) You'll now see a link on the top-left of the page that says "FAVORITES: MY SELECTION (#)" where # is the number of images you've selected. Clicking on the "MY SELECTION" link will display your selected favorites.
- 4) Further choices for re-arranging and removing images from your favorites gallery are shown on the web page.
- 5) Once you've narrowed down your selections to the final desired number, click on the [Send to...] button towards the top-left of the page and fill in the requested information. This then sends me your list of final images.

If I have any questions along the way, just let me know!
